

The New Standard for Merchant Settlement

Same Day-Every Day Settlement for Your Merchants

REAL-TIME FUNDS ARE NOW A REALITY FOR YOUR MERCHANTS

Traditional merchant settlement is slow and outdated, creating an unnecessary burden on your merchant's cash flow. We've remade merchant settlement to be fast, cost-effective and thoroughly modern. With our Ingo Push solution for acquirers, slow daily settlements are transformed into real-time funds, immediately available and ready to spend in a merchant bank account in minutes through a simple API integration. No more ACH holds, returns or delays.

INTELLIGENT ROUTING ENSURES TRANSACTION SUCCESS

Processing disbursements real-time requires exacting precision to ensure fail-safe routing to almost any consumer account. At Ingo Money, we've spent years perfecting an instant payment platform with intelligent BIN routing, including redundancy and auto re-routing to minimize failures.

The result: Fail-safe, intelligent routing to almost any consumer account.
